Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art of record teaches similar structure as disclosed by the applicant, but the prior art of record does not anticipate nor render obvious the overall combination of a manually-operable resuscitator to inject medication into air being supplied to a patient, the resuscitator having a patient valve having a passage extending from the atmosphere to the interior thereof adjacent to a one-way valve member and upstream thereof through which medication can be injected into the air as it passes from a bag to the one-way valve member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
